Online Legal Nurse Consultant Certificate Program

Legal nurse consultants bridge the gap between medicine and the judicial system, analyzing important medical information in solving cases. They help interpret and translate the subtleties involved in medical evidence and can play a huge role in case outcomes. At the completion of the course, you will receive 33 nursing continuing education contact hours that may be used toward state RN licensing renewal.

This eight-week course will introduce the participant to the basic concepts of Legal Nurse Consulting, including terminology common to litigation, the role the nurse consultant might perform in a variety of settings, report writing and documentation, participation in trials and hearings, and performing legal research.

Additional discussion will focus on the basic information useful for starting a practice as an independent consultant or working for an established business.

Participants will secure an interview with a legal professional (LNC, attorney, risk manager, adjuster, etc.) and prepare a 10-minute summary presentation via web conference to the class and instructor.

Participants will also research a legal issue using the guidelines provided and present the issue and facts by PowerPoint presentation posted to the course site.

Legal Nurse Consultant Certified (LNCC) exam is a discretionary test separate from this course that experienced registered nurses graduating from this class may decide to sit for. LNCC test eligibility requirements are discussed during this training course; however, RNs graduating from this course don't need to take the LNCC in order to practice as legal nurse consultants.

Admission requirements: Prospective students must complete an application form and submit it along with a copy of RN license and proof of three years of clinical nursing experience.

Testimonials

Make the commitment to yourself and your future and select Florida Atlantic University's Paralegal Program!

Changing careers after 20 years was significantly less challenging than I expected due to the education I received at Florida Atlantic University's Paralegal / Legal Studies Program. The Professors, Administrators, legal courses, and fellow students, challenged and helped prepare me for a career as a paralegal within the legal field. The knowledge and learning experiences I acquired from my professors and courses are the cement blocks of my foundation and has helped make me invaluable to my employers.

In summary, I am so grateful and appreciative to FAU because I am a successful paralegal today because of their program, and my hard work and dedication.

Jody Kling

The Paralegal Certificate Program offered by Florida Atlantic University provided me with so many opportunities. After I had graduated from FAU ('13) with my B.A. in Political Science and gone out into the work force, I realized that I needed something more, something that would provide me with a career, not a job. Through the Paralegal Certificate Program, I was challenged through twelve different courses, all in different areas of law, that opened my eyes to the broader legal field.

The instructors in the program challenged me in ways I had not been challenged before and because of their efforts, I was awarded a scholarship through the Palm Beach County Chapter of the Paralegal Association. Furthermore, the continuous job openings that the program provides to us students during the course of our studies allowed me to go out on real world interviews and get a better understanding of what real employers needed from candidates seeking employment. Thankfully, I now work for a great law firm right here in Boca Raton and about to sit for the National Association of Legal Assistants Certified Paralegal Exam.

Howard Rudnick

It's hard to imagine that after achieving a bachelor's degree with honors and graduating with a master's degree in my chosen field of International Business that getting a job would ever be a challenge.

I applied for the Paralegal Certificate at Florida Atlantic University and out of all my degrees, achievements and accomplishments in life, to this day I tell everyone this achievement was a turning point for me and the catalyst for my success.

I had the utmost respect for the faculty who were all Attorneys in the field of law that they taught. I honestly believe that teaching as theory is one thing but when you have a professor who not only explains the theory but can give you real life scenarios, it becomes priceless. The networking possibility is further enhanced as today I still keep in contact with a few of my professors who I now consider dear friends. I was also able to network with students who are very close friends of mine and doing quite well in the field.

Today I am working as a Paralegal for the senior partner at a very successful Personal Injury law firm Baker and Zimmerman, P.A. as well as in my third year of law school at Nova South Eastern University. None of what I have achieved thus far in my legal career would ever have been possible without this FAU Paralegal Certificate. So I encourage you to take this opportunity and run with it and once you cross that finish line the prize would be worth it all.

Tanecia Natto

The Paralegal Certificate Program at Florida Atlantic University was by far one of the greatest courses I have ever taken. The program gave me the skills and knowledge to be hired as a caseworker at the Human Rights Institute because the classes are taught by practicing attorneys. With this program on my application and a beautiful letter of recommendation, I applied to law school and graduated attorney at law in 2013. As soon I passed the Bar, I opened Riano & Associates, my own law firm due to the experience and skills acquired during the legal assistant/paralegal course. This program helped me achieve my goals so if you have the opportunity to take this course... DO IT, you will never regret it!!!!

“When I first learned that the demand for paralegals / legal assistants was growing faster than most other occupations, I was extremely interested in learning how I could become one. At FAU it was easy for me to get started and stay enrolled. Now I have my certificate and I am more marketable than ever before.”
